

## EMSP 2544 - Cardiology 101 Course Syllabus

### Description

A detailed study of the assessment and management of patients with cardiac emergencies. Includes single and multi-lead ECG interpretation.

**Prerequisites** Current TX EMT certification, [BIOL 2404](#) or [BIOL 2401](#)

[EMSP 1355](#), [EMSP 1356](#), [EMSP 1438](#), [EMSP 2260](#), and [EMSP 2306](#)

### Semester Offered

Summer 1

**Credits** 5

**Lecture Hours** 4

**Lab Hours** 2

**Extended Hours** 0

**Contact Hours** 96

**State Approval Code** 51.0904

**Instructor Name** Miranda Hagans

**Semester/Year** Summer I 2025

### Meeting Time and Location

Monday, Wednesday, Friday 9:00-4:00

Dr. Gregory S. Powell Science Center Room 1118

### Alternate Operations During Campus Closure

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website ([www.panola.edu](http://www.panola.edu)) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

### Student Basic Needs

Unexpected circumstances may arise, but Panola College offers various resources to support students. If you need mental health services or are facing challenges with transportation, affording class materials and supplies, or accessing food regularly—issues that may impact your class performance—please visit [panola.edu/resources](http://panola.edu/resources).

### Class Attendance

Regular and punctual attendance of classes and laboratories is required of all students. When a student has been ill or absent from class for approved extracurricular activities, he or she should be allowed, as far as possible, to make up for the missed work. If a student has not actively participated by the census date, they will be dropped by the instructor for non-attendance. This policy applies to courses that are in-person, online, hybrid, and hybridflex.

Attendance in online courses is determined by submission of an assignment or participation in an activity. According to federal guidelines, simply logging into a distance learning course without participating in an

academic assignment does not constitute attendance. Distance learning is defined as when a majority (more than 50%) of instruction occurs when the instructor and students are in separate physical locations. Students must engage in an academic activity prior to the course census date.

When an instructor feels that a student has been absent to such a degree as to invalidate the learning experience, the instructor may recommend to the Vice President of Instruction that the student be withdrawn from the course. Instructors may seek to withdraw students for non-attendance after they have accumulated the following number of absences:

Fall or spring semesters:

3 or more class meeting times per week - 5 absences

2 class meeting times per week - 3 absences

1 class meeting per week - 2 absences

The student is responsible for seeing that he or she has been officially withdrawn from a class. A student who stops attendance in a class without officially withdrawing from that class will be given a failing grade; consequently, the student must follow official withdrawal procedures in the Admissions/Records Office.

Please note: Health Science and Cosmetology courses may require more stringent attendance policies based on their accreditation agencies. Please see the addendum and/or program handbook for further information concerning attendance.

### **Pregnant/Parenting Policy**

Panola College welcomes pregnant and parenting students as a part of the student body. This institution is committed to providing support and adaptations for a successful educational experience for pregnant and parenting students. Students experiencing a need for accommodations related to pregnancy or parenting will find a Pregnancy and Parenting Accommodations Request form in the Student Handbook or may request the form from the course instructor.

### **Artificial Intelligence (AI) Course Policy**

**Use of generated AI Permitted under some classroom circumstances with permission.**

There are situations throughout the course where you may be asked to use artificial intelligence (AI) tools to explore how they can be used. Outside of those circumstances, you should not use AI tools to generate content that will end up in any student work (assignments, activities, discussion responses, etc.). In such cases for Option #2, no more than 25% of the student work should be generated by AI. Use of any AI-generated content in this course without the instructor's consent qualifies as academic dishonesty and violates Panola College's standards of academic integrity.

### **Instructional Goals and Purposes**

The purpose of this course is to prepare the student in the assessment and management of patients with cardiac emergencies. The course includes single and multi-lead ECG interpretation.

### **Learning Outcomes**

1. Integrate pathophysiological principles and assessment findings to formulate an impression for a cardiac patient.
2. Implement a treatment plan for the cardiac patient.

### **Specific Course Objectives (includes SCANS)**

After studying all materials and resources presented in the course, the student will be able to:

1. Integrate pathophysiological principles and assessment findings to formulate an impression for a cardiac patient.(SCANS  
1;a;i,ii,iii,iv,v,b;i,ii,iii,iv,v,vi,c;i,ii,iii,iv,v,2;a;i,ii,iii,b;i,ii,iii,iv,v,vi,c;i,ii,iii,iv,d;i,ii,iii,e;i,ii,iii)
2. Implement a treatment plan for the cardiac patient.(SCANS  
1;a;i,ii,iii,iv,v,b;i,ii,iii,iv,v,vi,c;i,ii,iii,iv,v,2;a;i,ii,iii,b;i,ii,iii,iv,v,vi,c;i,ii,iii,iv,d;i,ii,iii,e;i,ii,iii)

### **Course Content**

A general description of lecture/discussion topics included in this course are listed in the Learning Outcomes / Specific Course Objectives sections of this syllabus.

Students in all sections of this course will learn the following content:

1. Content areas include:
  - The Cardiovascular System
  - Cardiovascular Emergencies
  - Introduction to Electrophysiology and Sinus Rhythms
  - Atrial, Junctional, and Ventricular Rhythms and Heart Block
  - Cardiac skills labs (heart lab, monitor skills lab)
  - 12 lead
  - American Heart Association Advanced Cardiac Life Support Course

### **Methods of Instruction/Course Format/Delivery**

This course is offered in a flipped classroom format with instruction in the classroom and skills lab to compliment student reading assignments, videos, activities, discussions, independent study, group assignments, and other activities assigned in each JB Learning lesson assignment.

### **Major Assignments/Assessments**

The following items are assigned and assessed during the semester and used to calculate the student's final grade.

#### **Assignments**

#### **Assignments**

The following items will be assigned and assessed during the semester and used to calculate the student's final grade.

1. Self-assessments covering the topics below
2. In class quizzes covering the topics below
3. Daily in class activities and daily homework covering the topics below as assigned in the daily lessons and on your schedule.
4. Pathophysiology papers and scenarios as assigned in daily lessons covering the topics below:
  - The Cardiovascular System: Blood and Vasculature
  - The Cardiovascular System: The Heart
  - Cardiovascular emergencies
  - Introduction to Electrophysiology and Sinus Rhythms
  - Atrial, Junctional, and Ventricular Rhythms and Heart Blocks
  - Cardiac Skills Lab (Heart lab, monitor skills lab)
  - Dysrhythmia class
  - 12 Lead class
  - ACLS class
  - Pathophysiology papers/scenarios

All assignment due dates are listed on the course schedule that is posted on Canvas and in each lesson.

#### **Assessments**

#### **Assessments**

1. ACLS skills testing
2. ACLS course test
3. 12 lead and EKG test

#### **Course Grade**

The grading scale for this course is as follows:

Students MUST maintain an OVERALL grade of 80% in the course to be eligible to participate in clinical rotations. Students who do not achieve this will have their clinicals IMMEDIATELY suspended and participate in REMEDIATION through tutoring sessions.

Below is the corresponding percentage to letter grade.

92%-100%	A
86-91.99%	B
80-85.99%	C
70-79.99%	D
0-69.99%	F

Refer to policy and procedures manual and student handbook for grade appeals.

1. Students must pass the EKG and 12 final exam with at least 80%, the ACLS exam with at least an 84% and skills testing (failure of final or skill testing will mean dismissal from program).
2. Students wishing to know their average may do so any time during course. Official grades are posted on CANVAS.

Homework, Quizzes	25%
Class participation, skills	25%
Final Exam (must pass)	50%

### Texts Materials, and Supplies

- Nancy Caroline's Emergency Care in the Streets 9th edition with Navigate 2 flipped classroom access.
- Current AHA Advanced Cardiac Life Support provider manual
- Platinum Planner

### Required Readings

- Nancy Caroline's Emergency Care in the Streets 9th edition with Navigate 2 flipped classroom access.
- Current AHA Advanced Cardiac Life Support provider manual

### Recommended Readings

- Current EMS Pocket Field Guide, ALS Version

### Addendum

Course guide included below

### Other

- Courses conducted via video conferencing may be recorded and shared for instructional purposes by the instructor.
- For current texts and materials, use the following link to access bookstore listings: <https://www.panolacollegestore.com>.
- For testing services, use the following link: <https://www.panola.edu/student-services/student-support/academic-testing-center>.
- The Accommodations & Disability Support (A&DS) Office at Panola College provides and facilitates support services and accommodations for students with disabilities. The A&DS office works under the federal guidelines included in Section 503 of the Rehabilitation Act of 1973 and the American with Disabilities Act. Please contact the Accommodations & Disability Support (A&DS) Office located in the Charles C. Matthews Student Center or go to <https://www.panola.edu/disabilitysupport> for more information.
- Withdrawing from a course is the student's responsibility. Students who do not attend class and who do not withdraw will receive the grade earned for the course.

- Student Handbook: <https://www.panola.edu/> (located on at the bottom under student)

## SCANS Criteria

1. Foundation skills are defined in three areas: basic skills, thinking skills, and personal qualities.
  1. Basic Skills: A worker must read, write, perform arithmetic and mathematical operations, listen, and speak effectively. These skills include:
    1. Reading: locate, understand, and interpret written information in prose and in documents such as manuals, graphs, and schedules.
    2. Writing: communicate thoughts, ideas, information, and messages in writing, and create documents such as letters, directions, manuals, reports, graphs, and flow charts.
    3. Arithmetic and Mathematical Operations: perform basic computations and approach practical problems by choosing appropriately from a variety of mathematical techniques.
    4. Listening: receive, attend to, interpret, and respond to verbal messages and other cues.
    5. Speaking: Organize ideas and communicate orally.
  2. Thinking Skills: A worker must think creatively, make decisions, solve problems, visualize, know how to learn, and reason effectively. These skills include:
    1. Creative Thinking: generate new ideas.
    2. Decision Making: specify goals and constraints, generate alternatives, consider risks, and evaluate and choose the best alternative.
    3. Problem Solving: recognize problems and devise and implement plan of action.
    4. Visualize ("Seeing Things in the Mind's Eye"): organize and process symbols, pictures, graphs, objects, and other information.
    5. Knowing How to Learn: use efficient learning techniques to acquire and apply new knowledge and skills.
    6. Reasoning: discover a rule or principle underlying the relationship between two or more objects and apply it when solving a problem.
  3. Personal Qualities: A worker must display responsibility, self-esteem, sociability, self management, integrity, and honesty.
    1. Responsibility: exert a high level of effort and persevere toward goal attainment.
    2. Self-Esteem: believe in one's own self-worth and maintain a positive view of oneself.
    3. Sociability: demonstrate understanding, friendliness, adaptability, empathy, and politeness in group settings.
    4. Self-Management: assess oneself accurately, set personal goals, monitor progress, and exhibit self-control.
    5. Integrity and Honesty: choose ethical courses of action.
2. Workplace competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.
  1. Resources: A worker must identify, organize, plan, and allocate resources effectively.
    1. Time: select goal-relevant activities, rank them, allocate time, and prepare and follow schedules.
    2. Money: Use or prepare budgets, make forecasts, keep records, and make adjustments to meet objectives.
    3. Material and Facilities: Acquire, store, allocate, and use materials or space efficiently. Examples: construct a decision timeline chart; use computer software to plan a project; prepare a budget; conduct a cost/benefits analysis; design an RFP process; write a job description; develop a staffing plan.
  2. Interpersonal Skills: A worker must work with others effectively.
    1. Participate as a Member of a Team: contribute to group effort.
    2. Teach Others New Skills.
    3. Serve Clients/Customers: work to satisfy customer's expectations.
    4. Exercise Leadership: communicate ideas to justify position, persuade and convince others, responsibly challenge existing procedures and policies.
    5. Negotiate: work toward agreements involving exchange of resources, resolve divergent interests.
    6. Work with Diversity: work well with men and women from diverse backgrounds. Examples: collaborate with a group member to solve a problem; work through a group conflict situation, train a colleague; deal with a dissatisfied customer in person; select and use appropriate

leadership styles; use effective delegation techniques; conduct an individual or team negotiation; demonstrate an understanding of how people from different cultural backgrounds might behave in various situations.

3. **Information:** A worker must be able to acquire and use information.
  1. **Acquire and Evaluate Information.**
  2. **Organize and Maintain Information.**
  3. **Interpret and Communicate Information.**
  4. **Use Computers to Process Information.** Examples: research and collect data from various sources; develop a form to collect data; develop an inventory record-keeping system; produce a report using graphics; make an oral presentation using various media; use on-line computer databases to research a report; use a computer spreadsheet to develop a budget.
4. **Systems:** A worker must understand complex interrelationships.
  1. **Understand Systems:** know how social, organizational, and technological systems work and operate effectively with them.
  2. **Monitor and Correct Performance:** distinguish trends, predict impacts on system operations, diagnose deviations in systems' performance and correct malfunctions.
  3. **Improve or Design Systems:** suggest modifications to existing systems and develop new or alternative systems to improve performance. Examples: draw and interpret an organizational chart; develop a monitoring process; choose a situation needing improvement, break it down, examine it, propose an improvement, and implement it.
5. **Technology:** A worker must be able to work with a variety of technologies.
  1. **Select Technology:** choose procedures, tools or equipment including computers and related technologies.
  2. **Apply Technologies to Task:** understand overall intent and proper procedures for setup and operation of equipment.
  3. **Maintain and Troubleshoot Equipment:** Prevent, identify, or solve problems with equipment, including computers and other technologies. Examples: read equipment descriptions and technical specifications to select equipment to meet needs; set up and assemble appropriate equipment from instructions; read and follow directions for troubleshooting and repairing equipment.
